

CHAPTER-2 (MANUAL-1)

Sewerage Operation Department

Particulars of Organization, Functions and Duties

Sewerage Operation department mainly carries out work of operation and maintenance of Sewerage System in Municipal limits. Sewerage Operations Department of M.C.G.M. operates and maintains the Sewerage Network, Sewage Pumping Stations, Sewage Treatment Plants(STP) and Waste Water Treatment Facilities (WWTF) brought in place by Sewerage Project and Mumbai Sewage Disposal Project departments in seven Sewerage Zones of Mumbai City. The sewage is conveyed through existing underground Sewer Network, collected at various Satellite Pumping Stations, treated at eight different Sewage Treatment Plants and disposed into nearby Sea/Creeks. In order to recover sewerage tax, sewerage benefit tax, sewerage charges, draft rules for sewerage and waste disposal are prepared. Similarly for effective and efficient functioning of sewerage system the minor repair work to some extent are carried out whenever required.

Duties and Responsibilities

Chief Engineer (Sewerage Operation) is Head of the of this department. He is responsible for smooth functioning of sewerage system in Municipal Corporation. As a chief he has to lay proper guidelines and planning for the prompt and effective operation of sewerage system in any circumstances.

Expectations from the Public

Draining of sewer lines in to storm water drains has to be avoided. If the garbage is through anywhere it gets accumulated in the sewer lines result in their choke up. Sewer lines must be connected officially only after completing all the formalities and by following the approved methodology.

The police station and the control room of this department must be informed immediately for any theft by keeping watch on the theft of the manhole covers, so that the thieves can be immediately caught.

To release the unprocessed sewage water from the industries in to the municipal sewer lines through external flow is dangerous to the workers working in drainage systems because they destroy the essential biological components of sewage disposal.

Particulars of Organization, Functions and Duties

Dy.Chief Engineer (Sewerage Operation) City / (Pipe Main Sewer) City

- Operation & Maintenance of Sewerage Network Pipe Main Sewers and 19 Sewerage Pumping Stations in City Zone from Colaba to Sion on East and Mahim on west.
- Invitation of tenders / quotations from outside agencies and also completing works through departmental staff.
- Suggesting and Implementing Modifications required for Upgrading the System.
- Preparing and implementing annual budget for the works to be under taken by this section.
- Overall control and monitoring of smooth functioning of sewerage network.
- General administration of city division.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

Dy.Chief Engineer (Sewerage Operation) W.S./Pipe Main Sewer Suburbs

- Operation & Maintenance of Sewerage Network Pipe Main Sewers and 17 Sewerage Pumping Stations Western Zone from Bandra to Dahisar.
- Invitation of tenders/quotations from outside agencies and also
- completing works through departmental staff.
- Suggesting and implementing modifications required for upgrading the system.
- Preparing and implementing annual budget.
- Overall control and monitoring of smooth functioning of sewerage network.
- General administration of Western Suburbs.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

Dy.Chief Engineer (Sewerage Operation) E.S.

- Operation & maintenance of sewer network and 07 pumping
- stations in Eastern Zone from Kurla to Mulund.
- Invitation of tender's quotations from outside agencies and also completing works through departmental staff.
- Suggesting and implementing modifications required for upgrading the system.
- Preparing and implementing annual budget.
- Overall control and monitoring of smooth functioning of sewerage network.
- General administration of Eastern Suburb.
- To attend meeting organised by various agencies and higher authorities.

- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P.,
- H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

Dy.Chief Engineer (Sewerage Operation) P&C

- Operation & Maintenance of the pumping stations at Love Grove and in Colaba zone, its W.W.T.F.'s, and outfalls.
- He also looks after planning and construction for rehabilitation of
- sewerage network, training, safety and maintain the sewerage maps on GIS platform.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

Dy.Chief Engineer (Sewerage Operation) Civil

- Repairs/Up gradation of sewerage network in BrihanMumbai in 24 Wards.
- Various Civil/Structural Repair works related to Pumping Stations, Lagoons, Chowkies and staff quarters under jurisdiction of Chief Engineer (S.O.) Department.

Dy.Chief Engineer (Sewerage Operation) Transport

- Looks after Operation and Maintenance of various vehicles to be provided to WSSD Departments.

- To process procurement of new vehicles & hire vehicles wherever necessary.
- To procure diesel, various spares & accessories required for maintaining vehicles.
- To prepare rate circular for various common items for various SO Division.

E.E.Mech.(Main Sewer) City..E.S.,W.S./(Pipe Main Sewer) City..E.S.,W.S.

- Overall Control & Monitoring of Smooth Functioning of Sewerage Network of Main Sewer lines/Pipe Main Sewers in City, by way of systematic cleaning & attending day-to-day complaints related to sewer lines.
- To make available the required machines/equipments for carrying out of the above activities by way of manufacturing them in sewerage Workshop City or by way of inviting quotations/tenders with sanction of Competent Authority
- Verification of proposals received from Ward Offices for repairs to pipe sewer lines, street connections, etc. & recommends them to Dy.Ch.E. (S.O.) City/(P.M.S.) City for sanction.
- All kinds of associated works connected with the above activities.
- Offering remarks regarding networks and its conditions, if asked by M.S.D.P. and roads department. All Administrative works of this section
- Making street connection or property connection to sewer networks through concern wards.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc. To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

E.E.Mech.(Sewage) Pumping. City I/City II/E.S./W.S./Bandra Zone

- Overall control & monitoring of smooth functioning of Sewerage Pumping Stations/W.W.T.F./lagoons as the case may be.
- To make available the required machines / equipments for carrying out the above activities by way of inviting quotations /tenders.
- All kinds of associated works connected with the above activities.
- All associated Administrative works towards labour.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

E.E.(Civil) S.O. City,E.S., W.S.

- Overall control over the establishment section of the E..E. (Civil) S.O. department & the remedial measure works.
- Get the estimates prepared from subordinate staff i.e. A.E. (C) S.O. and S.E. (C)S.O. & certification of the same.
- Periodic visits to various remedial measure work sites & noting the observations.
- Preparation of budget estimate/proposals for E.E. (Civil) S.O. division.
- Preparation of draft tenders of remedial measure work/dislugging etc.

E.E.Transport (W.S.S.D.)

- To exercise supervision and control over the work of his subordinate
- To maintain the fleet of vehicles in good working condition in order to render transport services to the user dept. at optimum efficiencies.

- To recruit staff like drivers, cleaners and labourers required for maintenance and operations of the vehicles through recruitment department.
- To attend the grievances of the staffs regarding their day to day problems.
- To supervise infrastructure facilities for general up keep of the fleet of vehicles.
- To prepare annual rate contract for vehicle maintenance works through outside agency.
- To attend the major accident.
- To take decision in emergency situation in regards to supply of emergency vehicles like water tankers, jeeps required for security, police etc. for maintaining law and order situation as and when such eventualities come up.
- To process tenders for the procurement of new vehicles.
- To assist in certifying the bills of the suppliers/contractors after the supply is received satisfactorily.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

Ex.Eng.(Procurement) S.O.

- Procurement and distribution of essential items i.e. pump vehicle spares, diesel, labour amenities etc. to the different sections of Sewerage Department.
- To maintain the un-interrupted supply of spares & amenities for smooth operations of pumping station & garages under Ch.Eng.(S.O.) through stores located at different levels.

- To Co-ordinate with stores department to keep constant flow for required materials, spare part, consumable etc.
- To prepare annual rate contracts for supply of common materials.
- Verification of codification of new items approving SOR of works items.

Assistant Engineer (Sewerage Operation)

A.E.Mech (Main Sewer) (Respective Sections)

- Overall control & monitoring of smooth functioning of Main Sewer lines in respective divisions.
- Division wise manpower planning & carry out systematic cleaning of Main Sewer Lines.
- Initiating various proposals for repairs / modification of sewer network in consultation with Ward Office / Sewerage Project Deptt. & Civil Wing.
- Quick redressal of complaints received from public & giving relief in shortest possible time.
- Repairing and maintaining various types of sewer cleaning machinery and equipments
- To assist E.E. to prepare budget in all respect.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

A.E. Mech (Sewage) Pumping (Respective Sections)

- Overall Control & Monitoring of Smooth Functioning of Sewage Pumping Stations in respective zones.

- Manpower planning and carryout preventive maintenance and breakdown maintenance of sewage pumping stations/W.W.T.F./lagoons
- Initiating various proposals for repairs / modifications of equipments for smooth functioning of sewage pumping stations by way of inviting quotations / tenders.
- To maintain inventory of consumables & other items.
- To assist E.E. to prepare budget.
- To attend meeting organised by various agencies and higher authorities.
- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

A.E.(Civil) (Respective Sections)

- Overall Control & Monitoring of Smooth Functioning of Sewage Pumping Stations in respective zones.
- Scrutiny of the remedial measure proposals received from Main Sewer office.
- Get the estimates prepared from subordinate staff i.e. Sub Engineer & verify the estimates & submission of estimates to E.E. (Civil) S.O.
- Frequent visits to remedial measure work site & overall control over the remedial work, being carried out by the contractors.
- Certification of the bills of contractor.
- Replies to the complaints letter & re-dressal of the complaints as well as RTI application & correspondence with various departments/utilities etc.
- Preparation of draft tender of remedial measure work/desludging etc.
- To attend various meetings as per directions of higher authorities.
- To attend meeting organised by various agencies and higher authorities.

- To take care of the plant and machinery and safety of personal and machinery.
- To co-ordinate with other related departments such as W.S.P., H.E., S.P., M.S.D.P., Stores, B.E.S.T., Traffic, Police, etc.
- To periodically visit to the works site for supervision of the work for its proper execution.
- To follow the statutory guide line issued by M.C.G.M., Govt. of Maharashtra and Govt. of India.

A.E. Transport (W.S.S.D.) (Respective Sections)

- To exercise supervision and control over the works of his sub-ordinates.
- To manage the operation and maintenance of a fleet of vehicles allotted to him in order to render transport services to the use department at optimum efficiency.
- To update and revise the management concept in accordance with the latest development in the related field.
- To co-ordinate with CPD, other garages and suppliers to provide trouble free services from the sources.
- To attend the major accidents and related matter, which may occur during the operation of the vehicles.
- To manage procurement of spares through scheduled suppliers appointed by Ch.Eng(SWM) to meet the monthly requirement as well as emergency requirements.
- To manage procurement of vehicles and body building works by invitation of tenders and execution of the same
- To co-ordinate with RTO & facilitate passing of vehicles from time to time.
- To paint the vehicles as per the norms set out by traffic police department.

A.E. (Procurement) S.O. (Respective Sections)

- To maintain the record of requirements of different sections of Sewerage Operation Department.

- Procurement of various items for consumables if requested by inviting quotations / tenders.
- Preparation of annual rate contracts for procurement of common materials required for various S.O divisions.
- Verification & codification of new items & SOR of new work items.

Sub Engineer (Sewerage Operation)

Sub. Engineer City, ES, WS.(Pumping)

- Planning & implementing day to day maintenance related works.
- Preparing preventive maintenance schedule.
- Recording day to day work done through MCGM staff & outside agencies.
- Supervision of all maintenance works Managing manpower.
- Preparing material requirement proposals & planning.
- Recording plant & machinery registers, equipments, history cards etc.

Sub. Engineer (Civil), City, E.S., W.S.

- Scrutiny of the remedial measure proposals received from Main Sewer office.
- Prepare the estimates for the proposals received from Main Sewer & submission of estimates to A.E. (Civil) S.O.
- Supervision & overall control over remedial measure work being carried out by the contractors.
- Certification of the bills of contractor. s
- Preparation of draft tender of remedial measure work/deslugging etc.
- To attend various ward committee meetings as per directions of higher authorities.

Sub. Engineer Transport (W.S.S.D.)

- He has to look after the unit sections of 2/3 garages as the case may be.
- He is responsible for repairs to units, sub-units.
- He should visit the garages under his control at least thrice in a week as required.
- He has to maintain the level of 'A' class item like tyres and batteries.
- He is also responsible for supply of spare parts to the garages.

- He should develop the vendors & developed contacts with the manufactures of vehicles and of ancillary industries and make available services of their expertise.
- He should act as a liaison between Transport Department and CPD.
- He should collect statistical data from the garages and process it for improving the work.
- He should analyse the break downs and running repairs in the garages and to take corrective action so that effectiveness of S&D will be enhanced.
- He should frame directions for carrying out schedule maintenance and overhauling work i.e. specifications of job operation, operational sequence etc. for each type of maintenance and overhauling job.
- He should see that the current information is displayed on the tally boards every day like type inventory, battery inventory and unit inventory etc.

Sub. Engineer (Proc) (Respective Section)

- Verification of codification for the new items.
- Verification of SOR of works items.
- Preparation of draft tenders and rate circulars.
